

# LOADALL | AGRICULTURAL RANGE

POWER RATING

**76-145hp**

LIFT CAPACITY

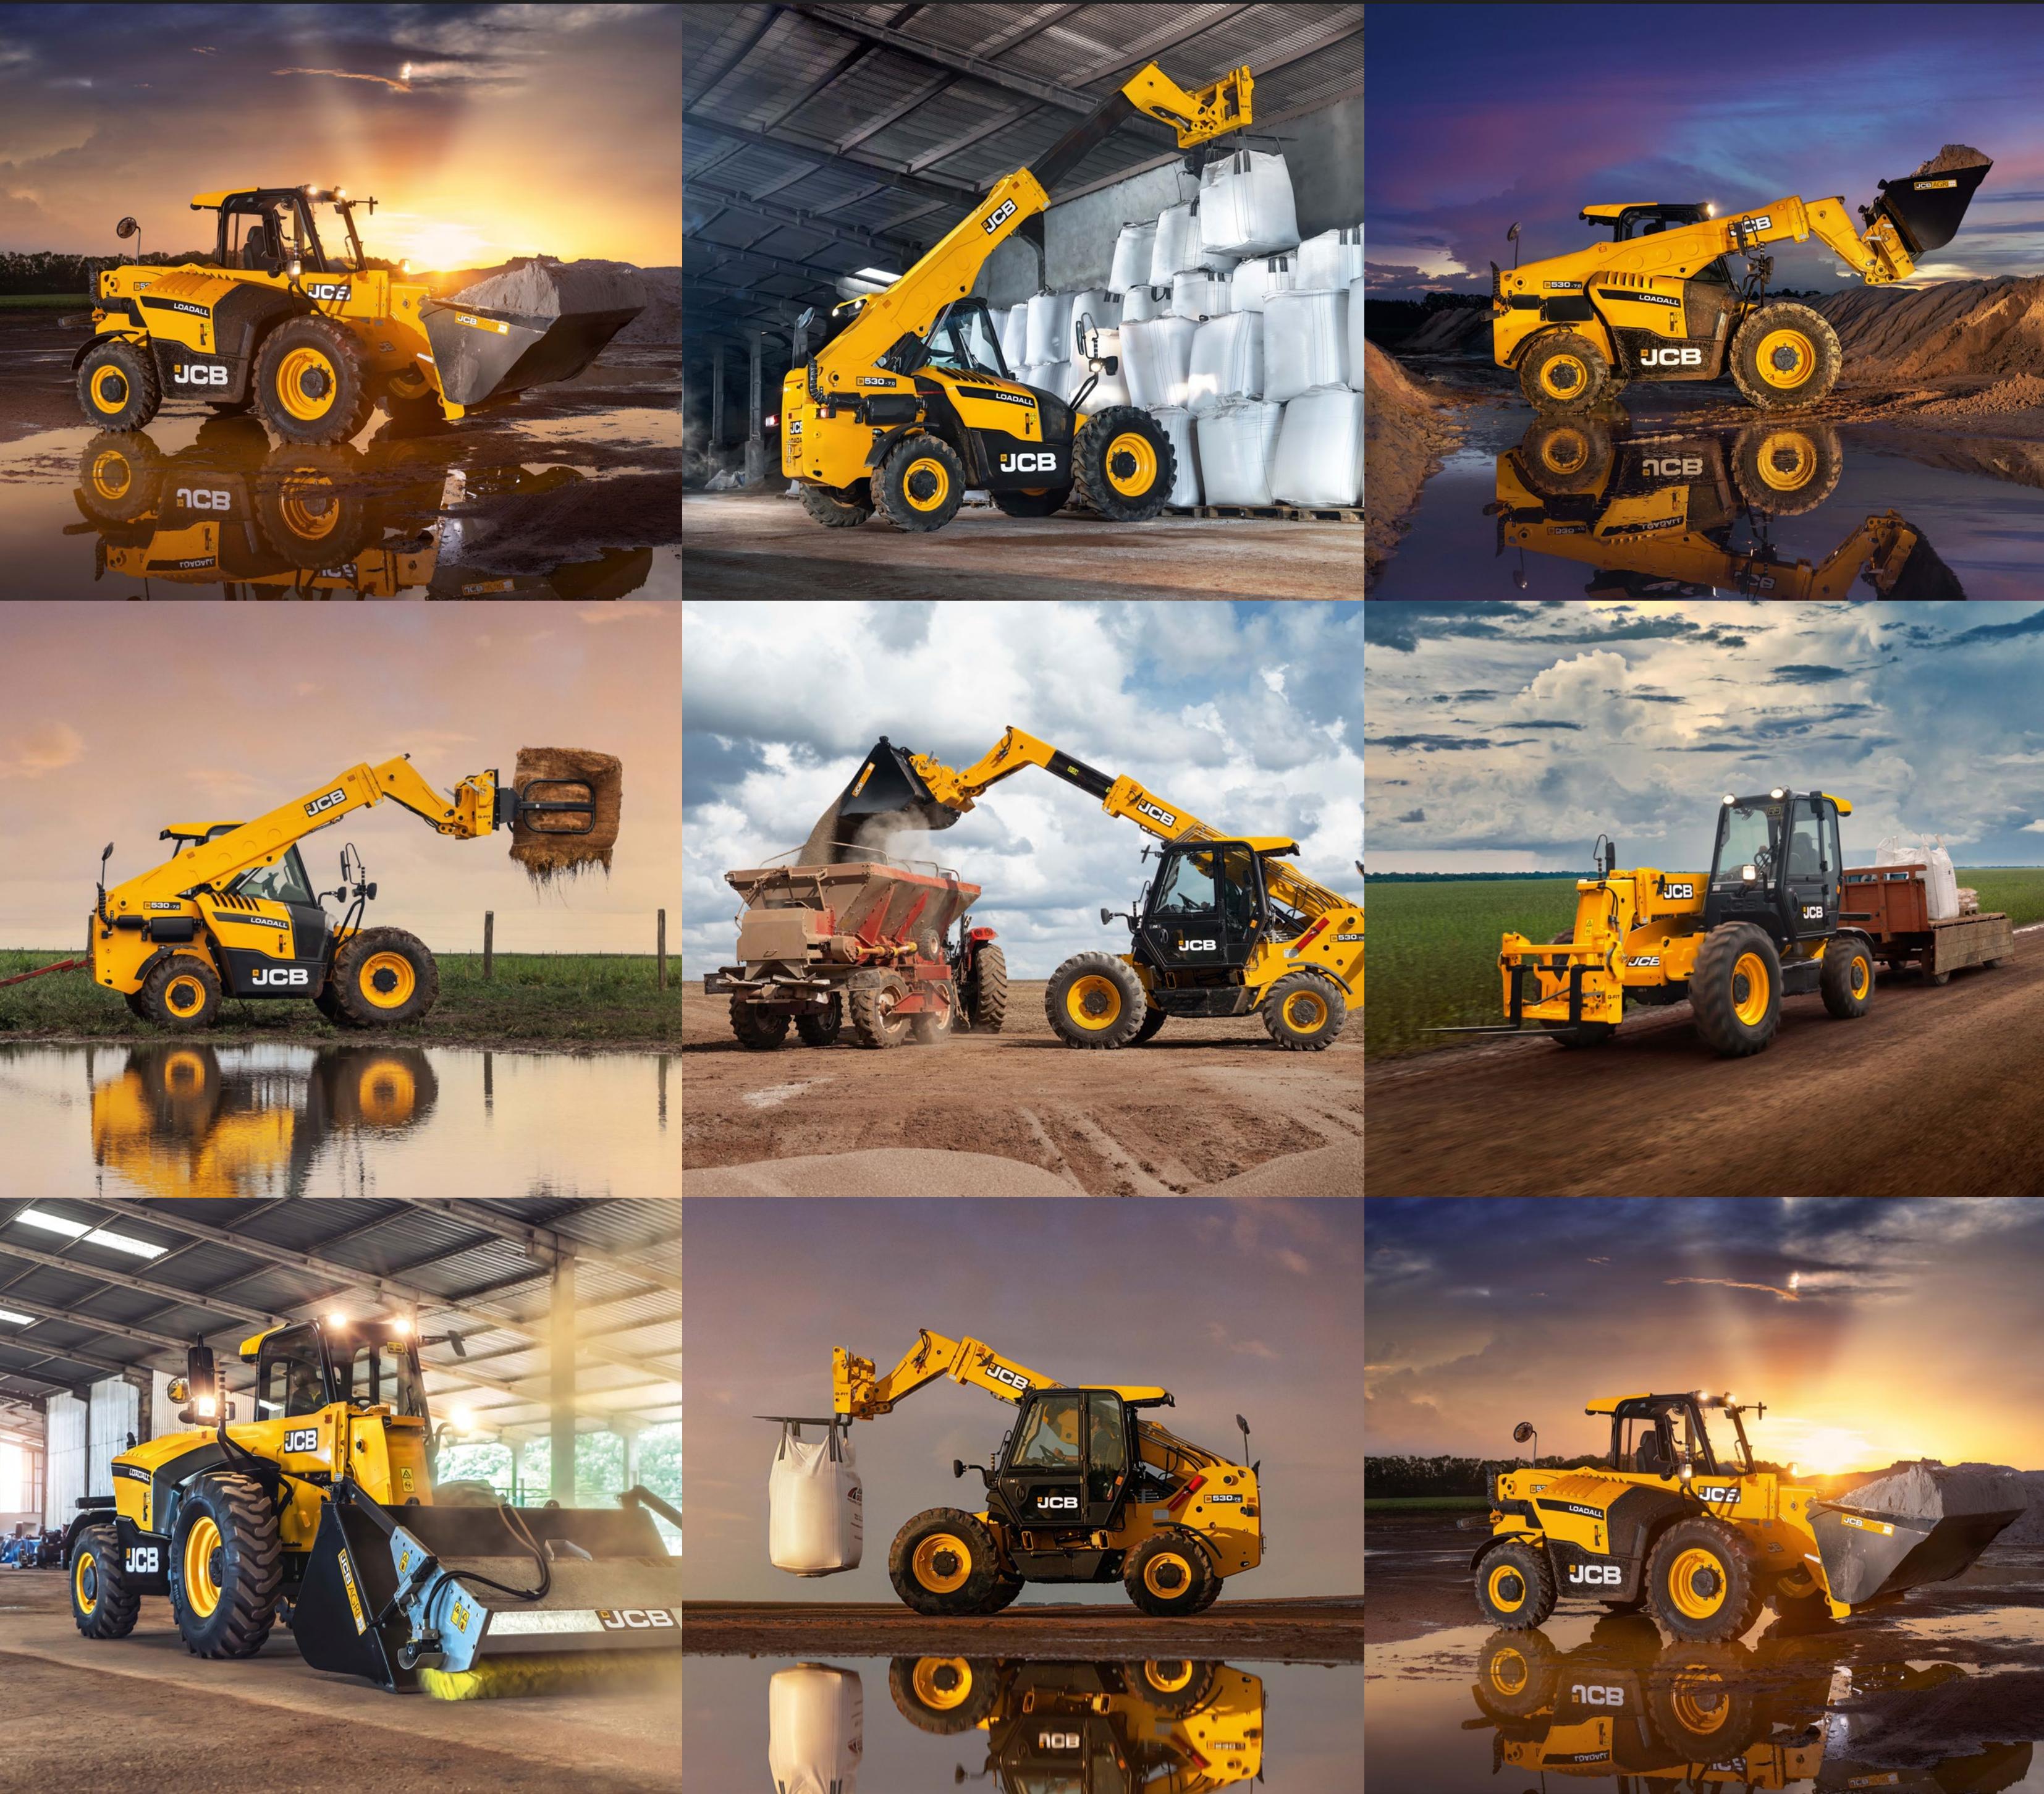

**3,000-4,100kg**

LIFT HEIGHT

**7.0-9.5m**

# DO MUCH MORE

JCB pioneered the telehandler concept in 1977 and constant innovation has helped us remain the world's No.1 choice. Today, the JCB Loadall range is one of the most extensive in the world, offering the combined versatility of many material handlers, including tractor loaders, wheeled loaders and forklifts.

# DO MUCH MORE IN LESS SPACE

Thanks to its telescopic boom, a JCB Loadall can reach higher and further than any front end loader, helping you do much more in less space.

## MACHINES TO SUIT ALL

Our range can lift between 3 and 4.1 tonnes and up to a height of 9.5 meters.

# DO MUCH MORE MATERIAL HANDLING

With rapid attachment changes, a Loadall can handle all materials from bales and grain bags to manure and sugar cane, helping you do much more across the farm.

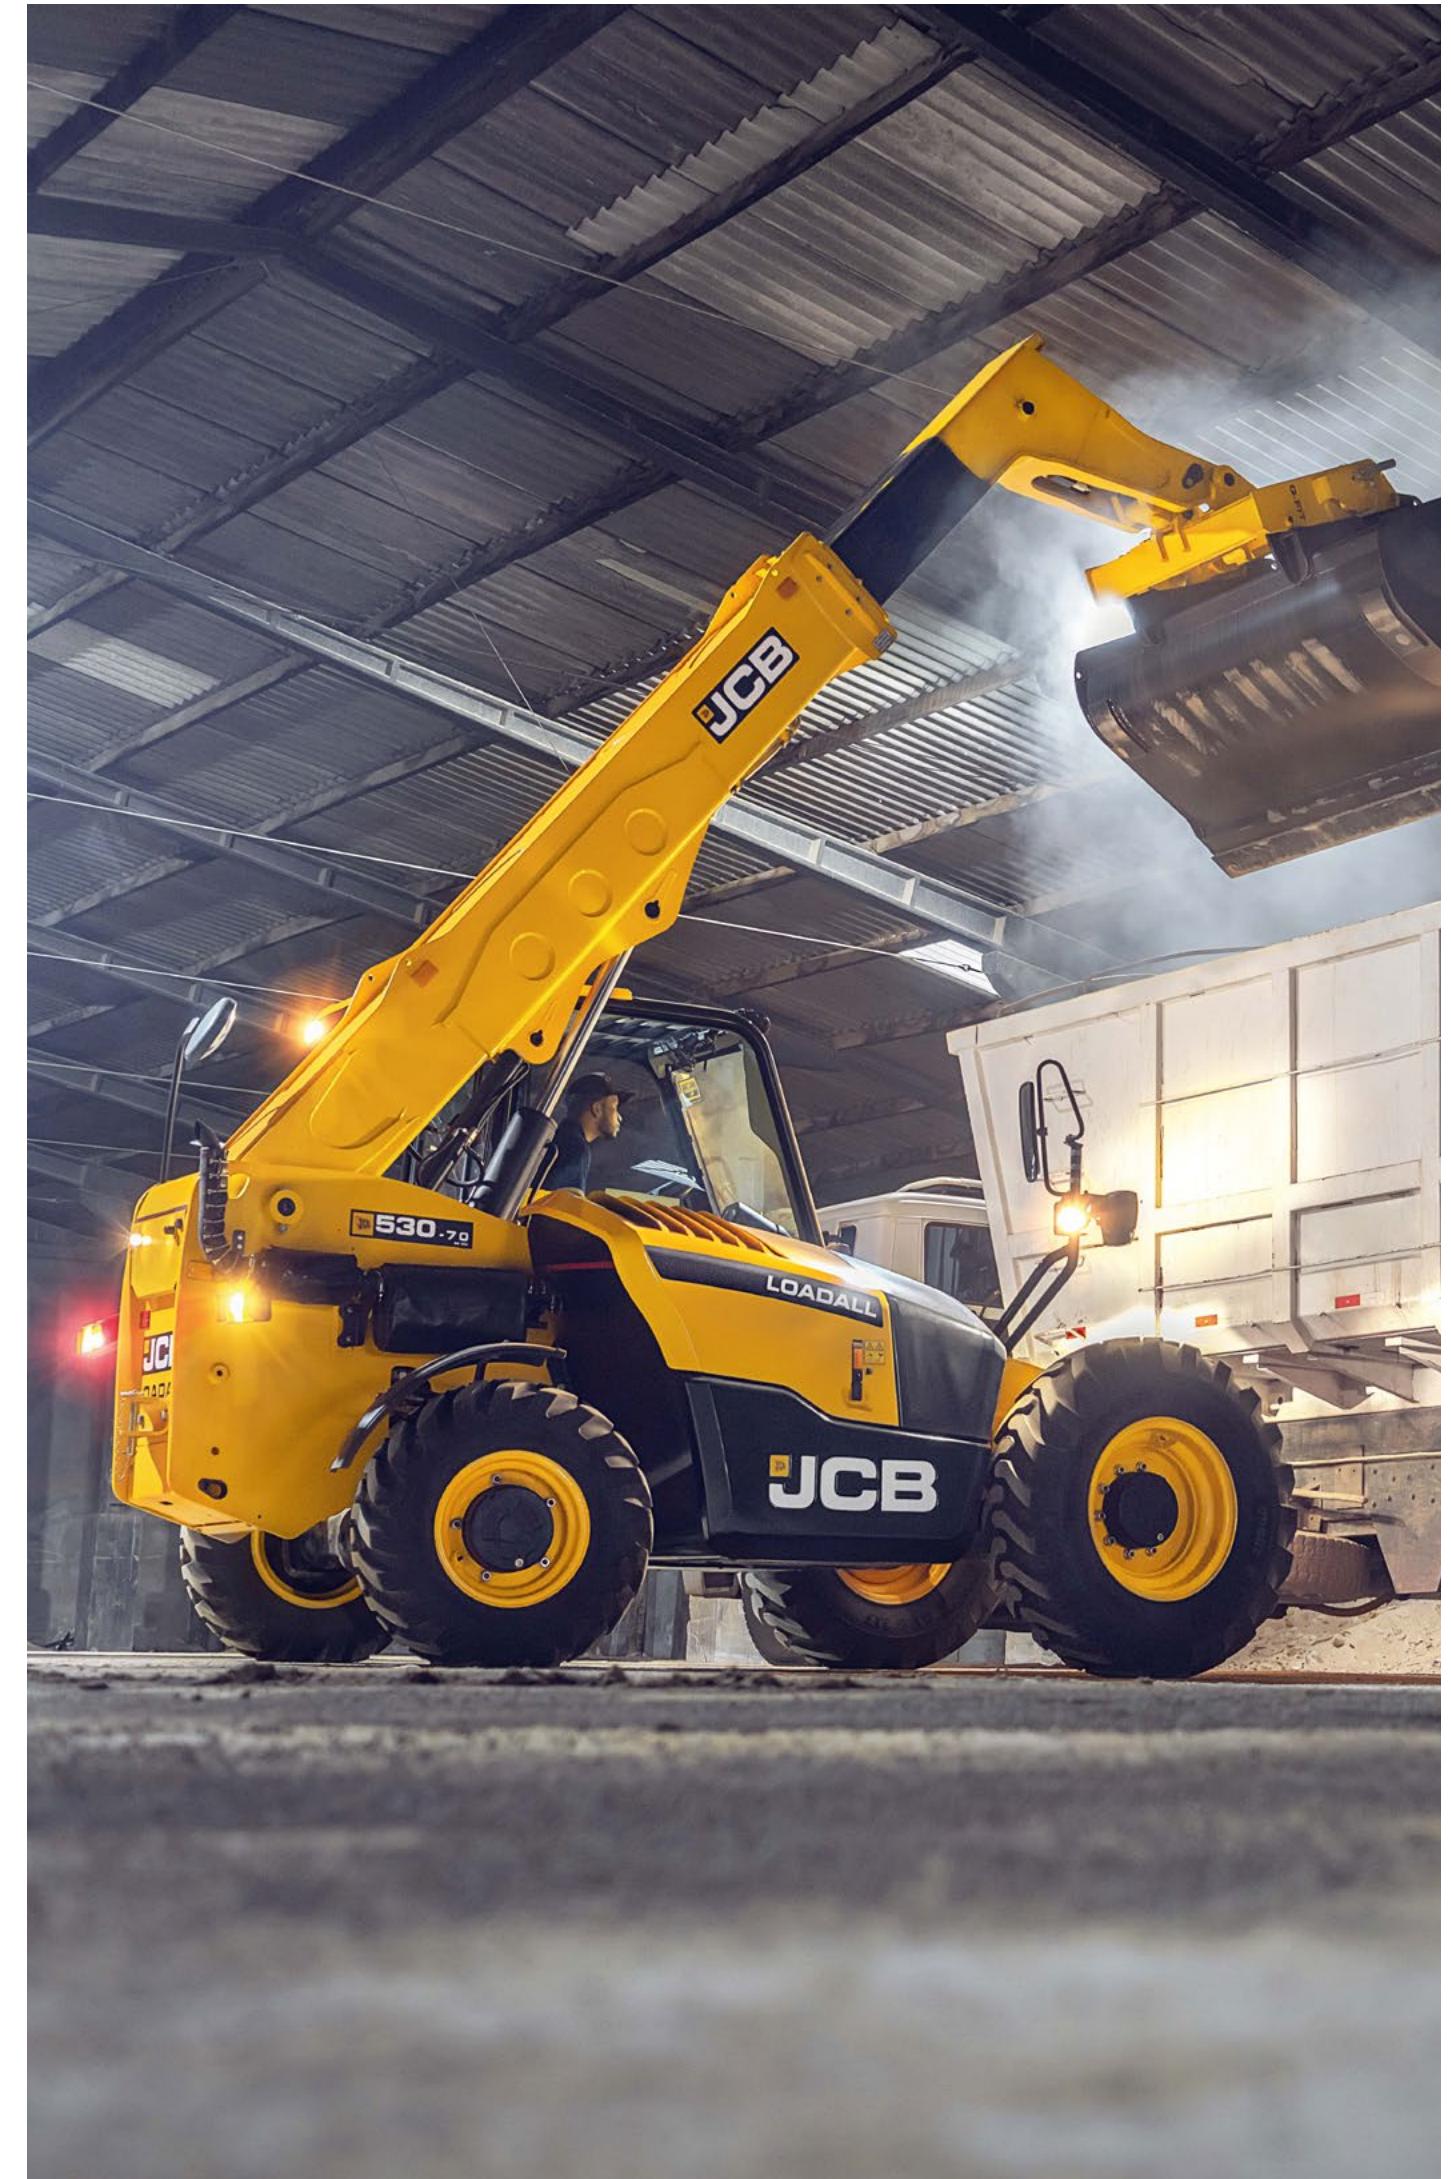

## AGRI RANGE OF ATTACHMENTS

From forks and buckets, to grabs and clamps, our range of attachments offers unrivalled versatility.

# DO MUCH MORE EFFICIENTLY

At JCB, we design and manufacture our own axles, transmission, hydraulic rams and engine, all designed to work in perfect harmony, with maximum reliability.

## FOUR WHEEL DRIVE

All Loadalls feature 4WD as standard, for maximum performance and traction across your farm.

# DO MUCH MORE SAFELY

JCB Loadalls offer comfortable and spacious cabins with added safety features like side and rearview mirrors for all-round visibility and a reverse alarm as standard.

## PEACE OF MIND

JCB Load Moment Indicator notifies the operator before reaching the stability limit and a ROPS & FOPS cab keeps the operator safe.

# DO MUCH MORE FOR LONGER

As the world's No. 1 choice, with over 40 years of design expertise and customer feedback, you can be assured your JCB Loadall is built to last.

## WORKING IN HARMONY

From the chassis and boom, to the rams, hydraulics and DIESELMAX engine, JCB make them all.
